

## **Hand in Hand, Supporting Medical Care in Sudan**

### **SILENT SLAUGHTER IN SUDAN – who is really paying attention?**

For many months now, we have been watching with great concern the suffering and dying of the people of Sudan, which has been largely ignored by the main media. In 2018, we founded the association 'Hand-in Hand Sudan' with the aim of improving medical care for the poorer population in Sudan. With the help of local doctors, we began to offer low-threshold access to medical centres, providing outpatient general medical, paediatric, dental, and gynaecological care. In addition, we planned to set up a peritoneal dialysis unit.

All of this was destroyed by the civil war that has been raging since 2023. The people of Sudan are currently experiencing the greatest humanitarian catastrophe of our time, largely unnoticed by the world! With unprecedented brutality, people are being murdered, raped, robbed, and the soul of a nation is being destroyed. There have been and continue to be massacres and massive crimes against international law.

The infrastructure in large parts of the country, including the capital Khartoum, has been largely destroyed. There is far too little access to water, no electricity, scarcely supply of basic food, and no shelter. The livelihoods of millions of people have been destroyed in the long term, 12 million people are refugees in their own country, and 25 million people are suffering from hunger with no prospect of support.

Our focus has therefore shifted; the emphasis is no longer on establishing outpatient medical care, but on providing immediate assistance to save lives by supplying food and other essentials. Many aid organisations had to leave the country, but hand in hand Sudan is particularly well suited to providing this emergency aid thanks to its long-standing and ongoing connections in the region.

**THE PEOPLE ARE IN DESPERATE NEED OF YOUR  
GENEROUS SUPPORT!!!**
